# ARIFANI EXPORTS

SOURCING · SUPPLIER RESEARCH · EXPORT COORDINATION

# Company Profile

Kenya-based trade support for buyers seeking sourcing opportunities in Kenya and East Africa.

## Who we are

Arifani Exports is a Mombasa-based sourcing and trade-support business. We work to connect buyer requirements with potential suppliers and coordinate the information needed to assess a transaction. Our approach is built around clear specifications, responsive communication and transparent scope.

## Core services

**Supplier sourcing:** Research and shortlist potential suppliers against product, volume, destination and commercial requirements.

**Supplier checks:** Coordinate business-document checks, references and evidence collection, with the scope and findings clearly stated.

**Export coordination:** Support specification alignment, document follow-up, packaging discussions and logistics coordination with relevant providers.

**Buyer representation:** Provide a local communication and coordination point for buyers engaging with suppliers in Kenya.

## Sourcing categories

Fresh produce and avocados · Essential oils and natural ingredients · Flowers and horticulture · Construction and general supplies · Selected commodity enquiries.

Each category is handled subject to supplier availability, product grade, season, quantity, applicable regulations and buyer requirements. No stock, certification or supplier capacity is represented as confirmed until supporting information has been reviewed.

## How we work

1. Buyer shares a detailed brief. 2. Scope, deliverables, timeline and any service fee are agreed. 3. Potential supplier options and available evidence are reviewed. 4. Next steps are coordinated, including samples, documents, Incoterms and logistics discussions where applicable.

## Trade information to establish

Product name and grade · Target quantity and packaging · Destination country and port · Required certificates or standards · Preferred Incoterm (for example FOB Mombasa or CIF destination) · Delivery timeline · Target price or budget.
